

# FOODLARM App Map

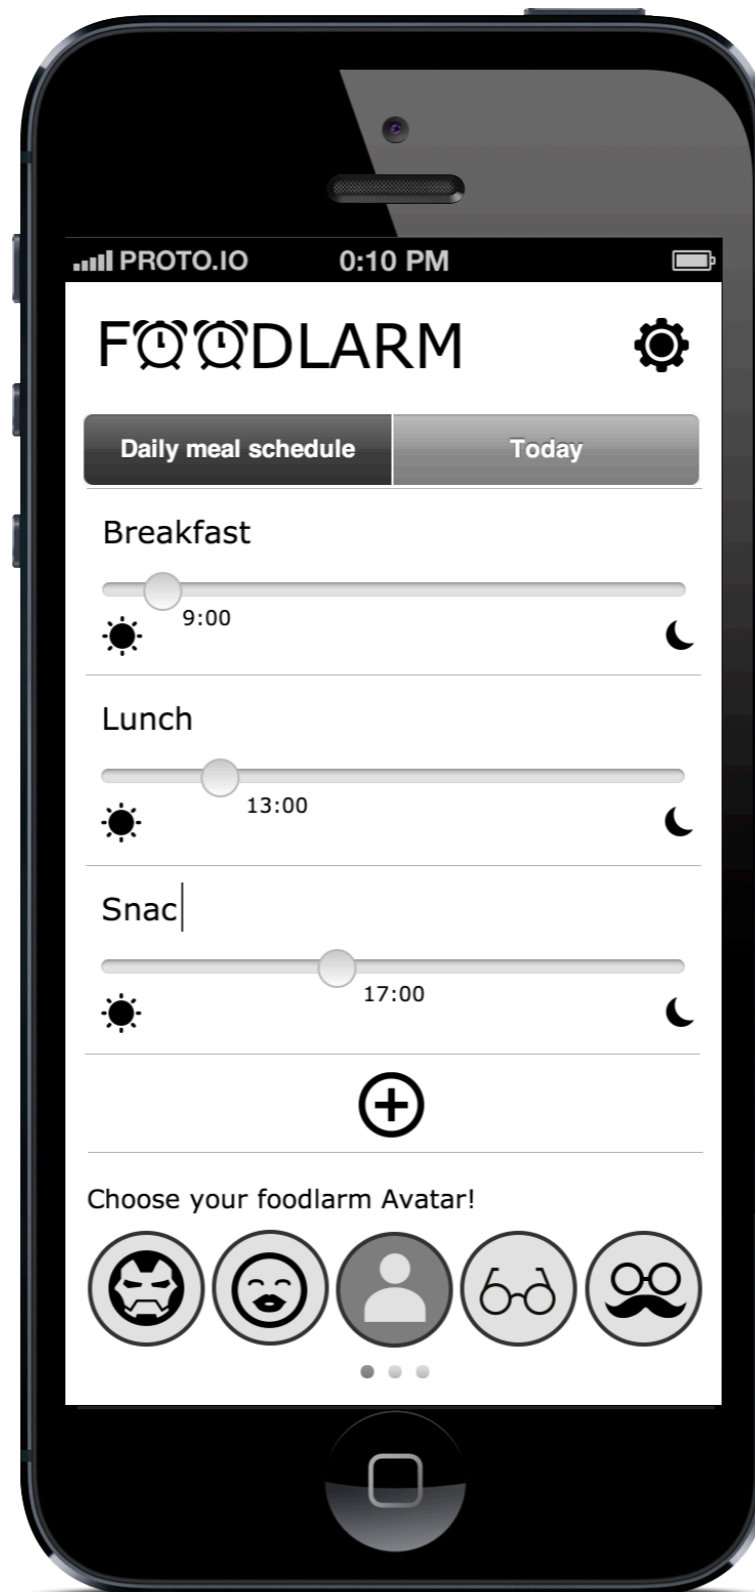

Foodlarm is an app for people for whom food is not a priority in their lives. For people who are so busy with work or school they completely forget they were supposed to eat two hours back and find themselves starving but stuck in the middle of work and have to make do with a cup of coffee or an apple lying in their bag. So guess what this app does? That's right, it reminds you to eat your food on time. Like a nagging mother or a nagging wife it is after your life to eat your food and to eat it on time.

The app enables you to set alarms for every meal and even lets you choose the avatar you want to be nagged by!

You can add as many meals as you want in a day! You'll be alarmed those many times...

Keep a check on what you had throughout the day or if you skipped any meals.

Customize your alarms.

Snooze alarms for later.
