

APPLE WATCH

WHAT WE KNOW

- 2 sizes- metal and band determining price (starting at \$349)
- always use with your phone
- probably a day of battery
- water resistant
- sensors of different sorts
- digital crown

2 SIZES

CONTEXT

- fast
- discreet
- personal

BAD NEWS

- what we can do is limited
- everything in a storyboard
- can only use crown for scrolling
- no gestures
- no sensor access

EMBRACE THE CONSTRAINTS!

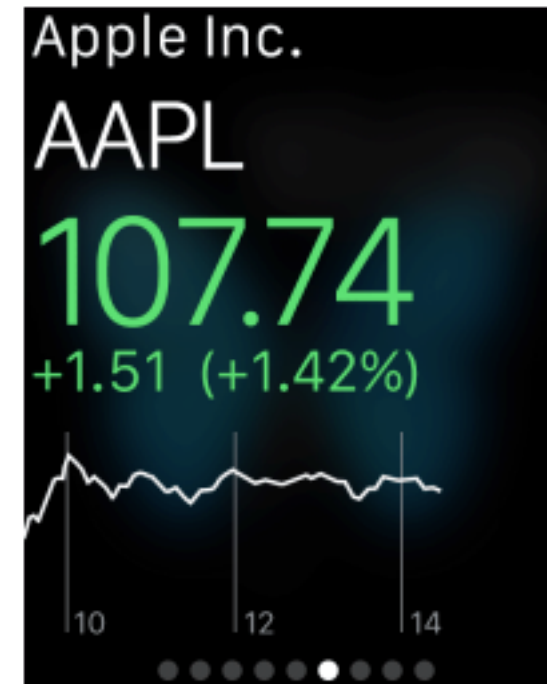

BUNDLED WITH IPHONE

- comes with you iPhone app
- all code executed on your phone (think of it as a server)
- there will be delays

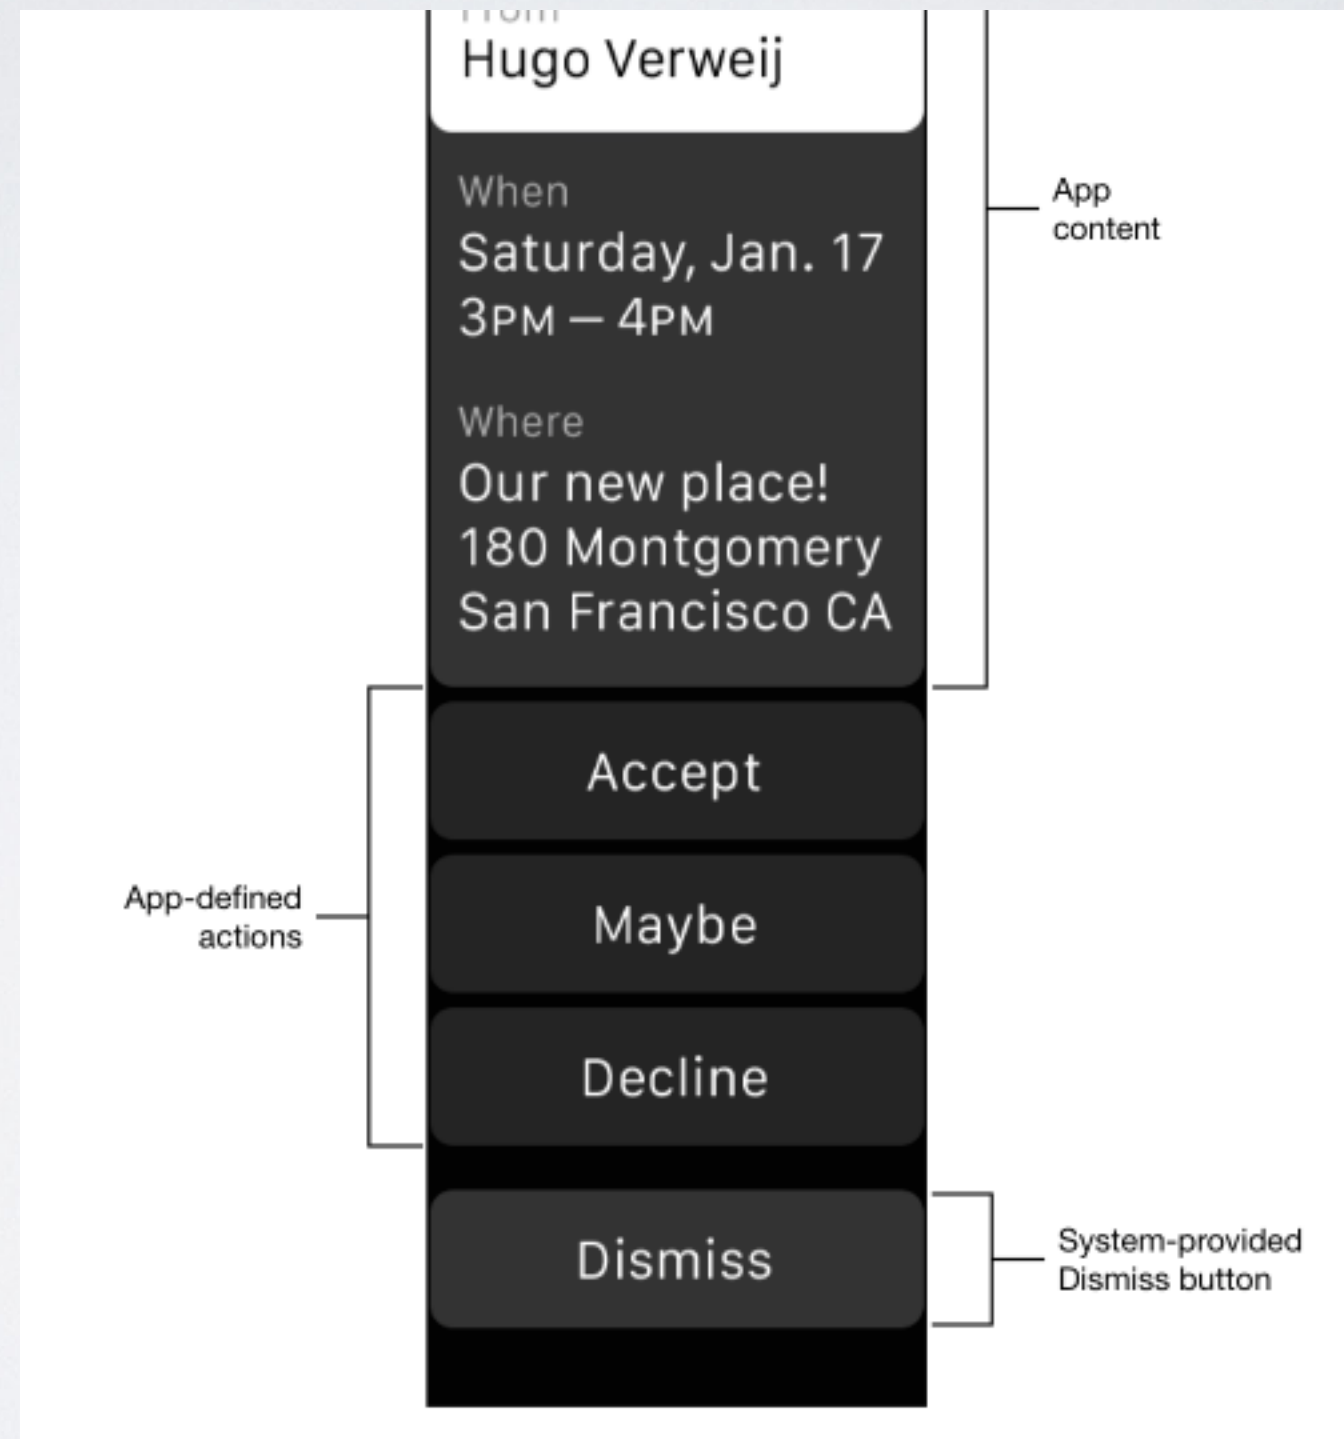

3 THINGS YOU CAN DO

- Glance
- Notification
- App

GLANCE

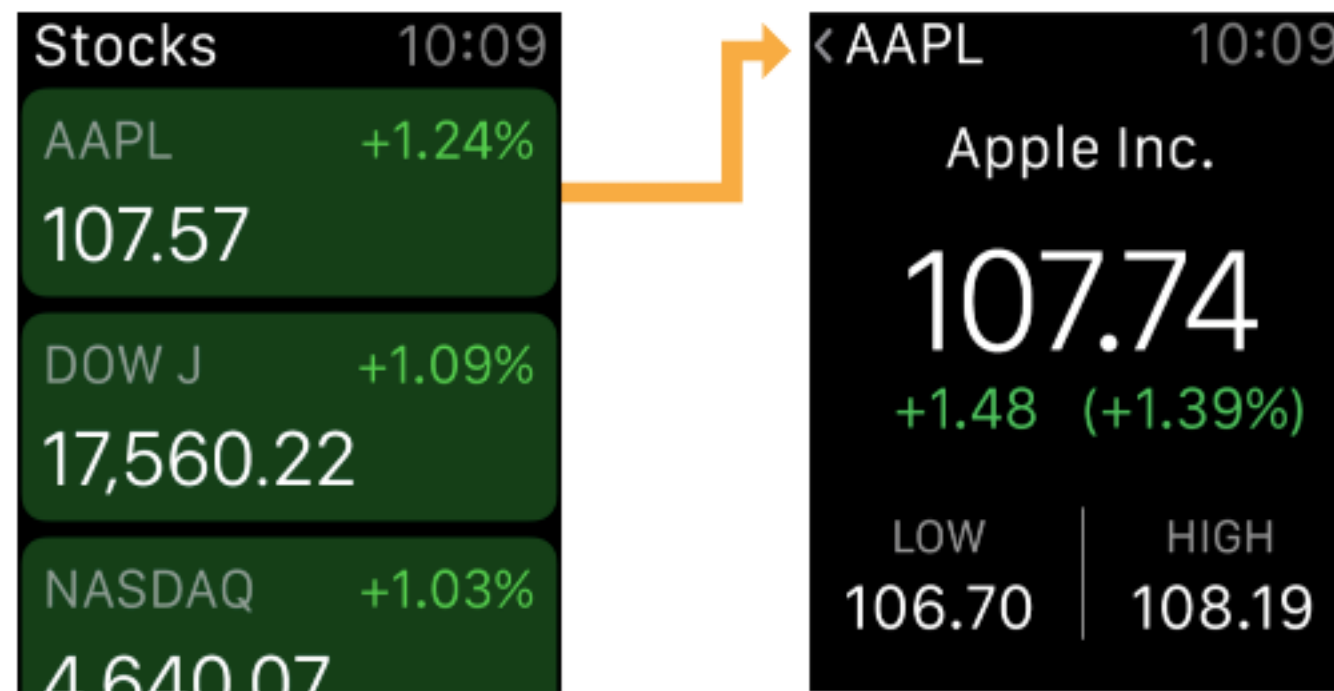

NOTIFICATIONS

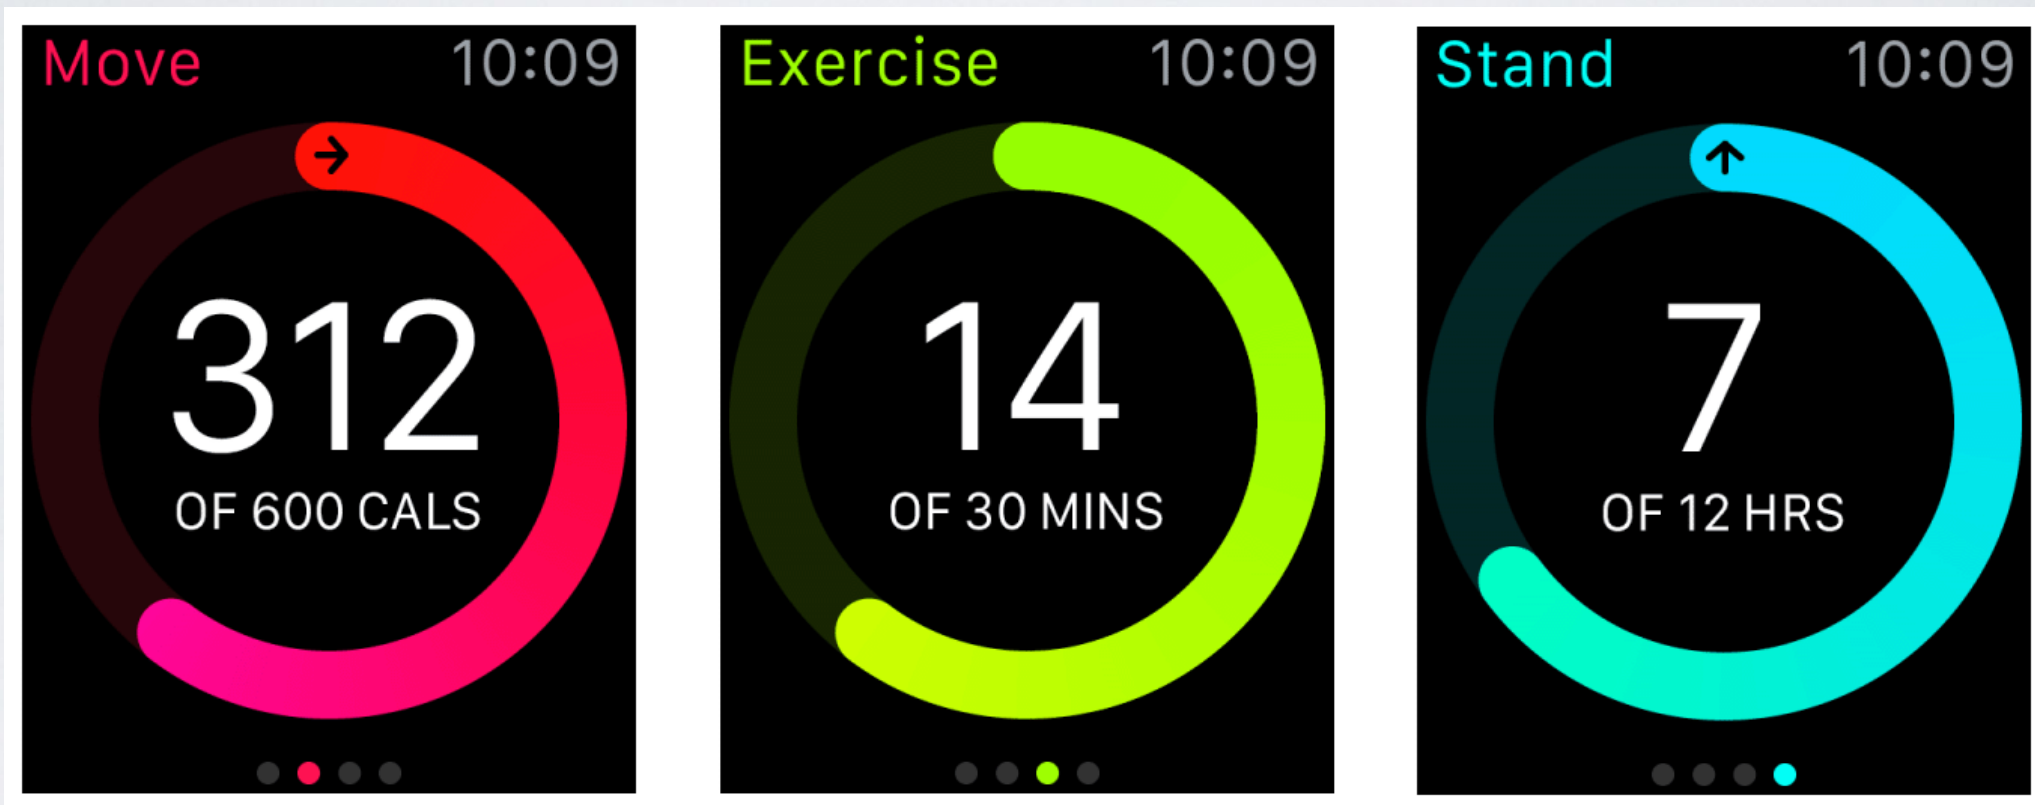

APP ARCHITECTURE

- Hierarchical
- OR Page-based

HIERARCHICAL

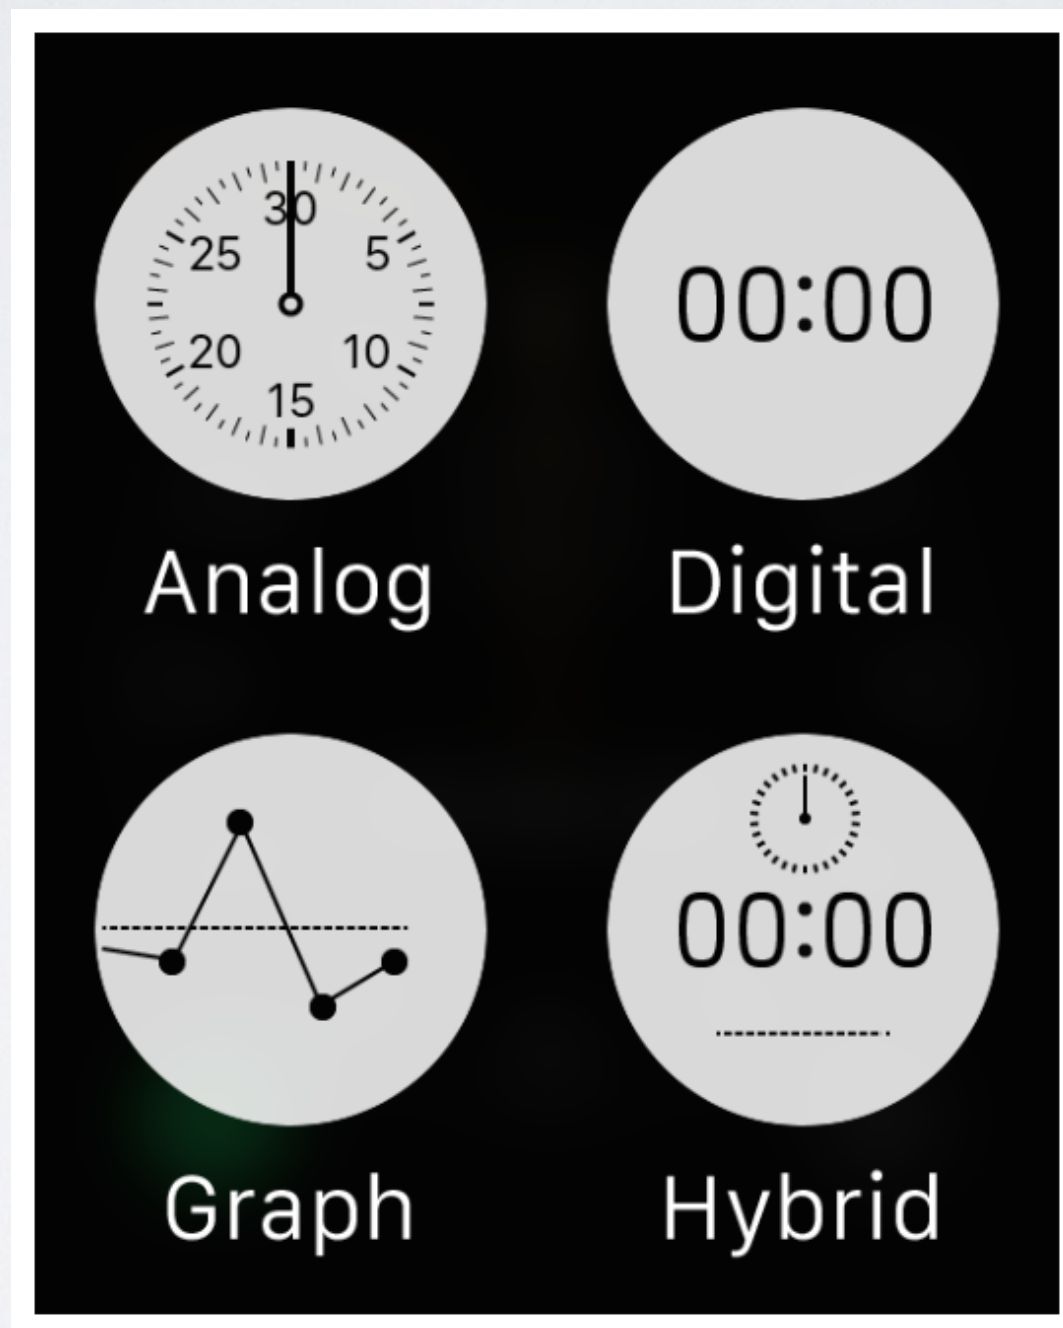

PAGE-BASED

THINGS FLOW

- Groups are like divs

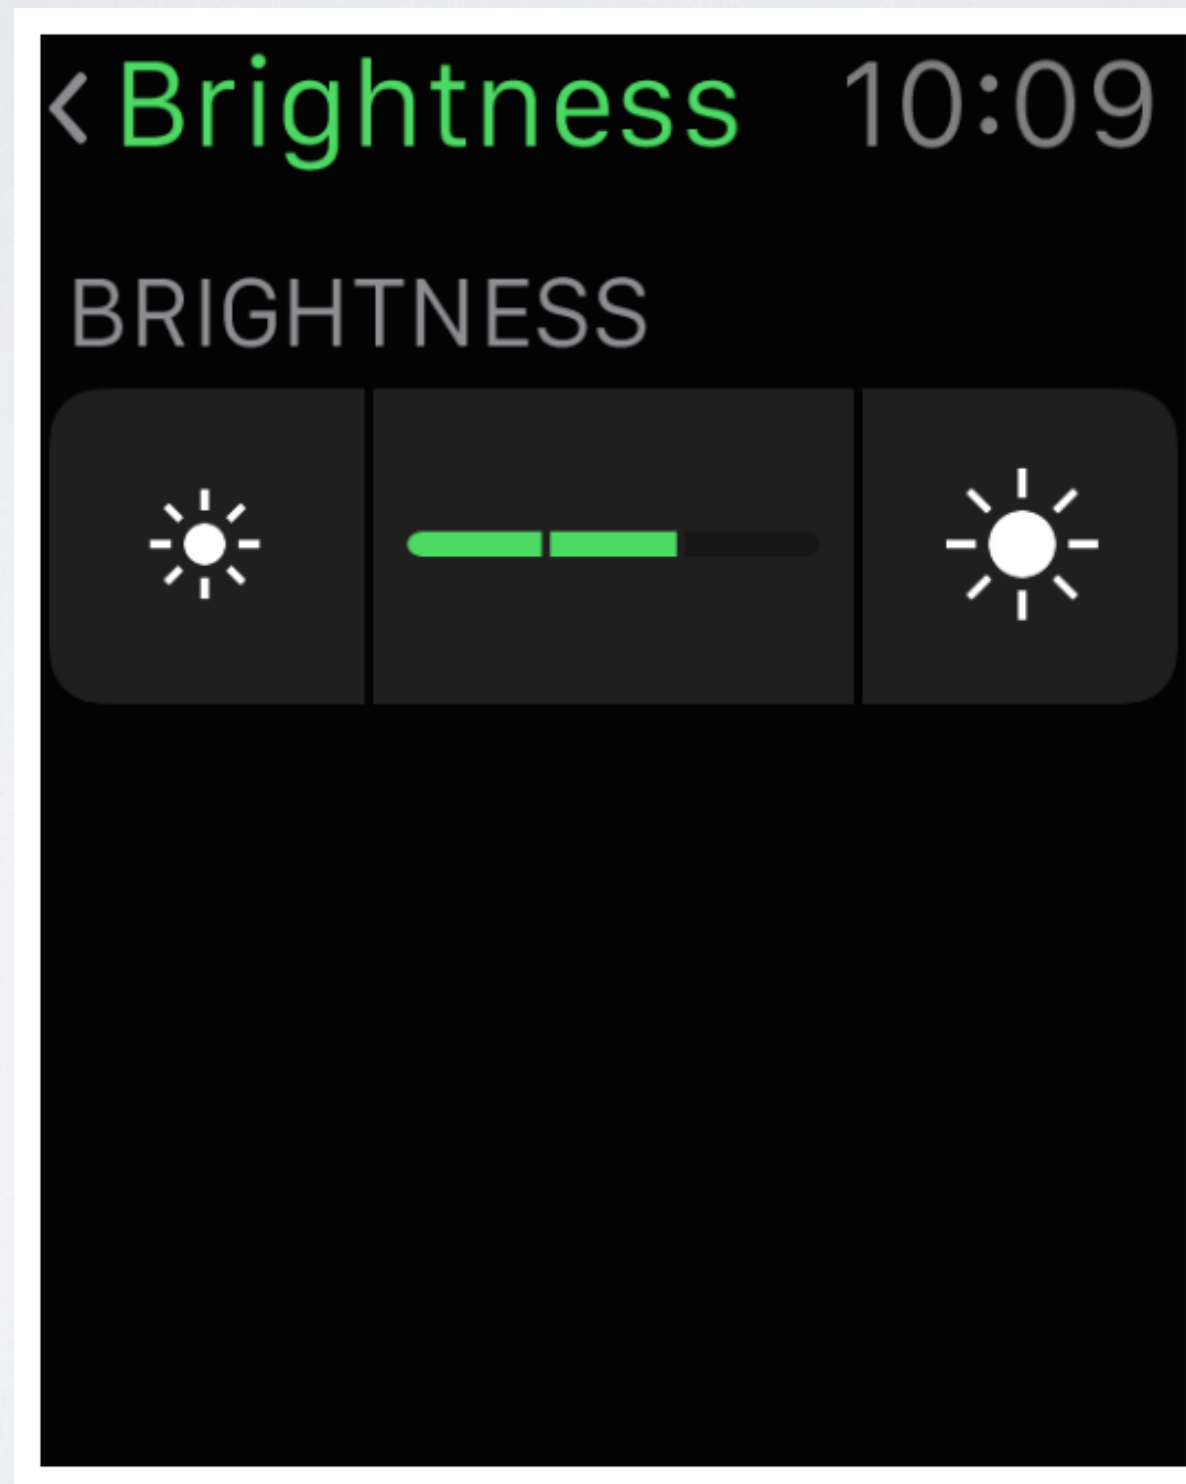

CONTEXT MENU

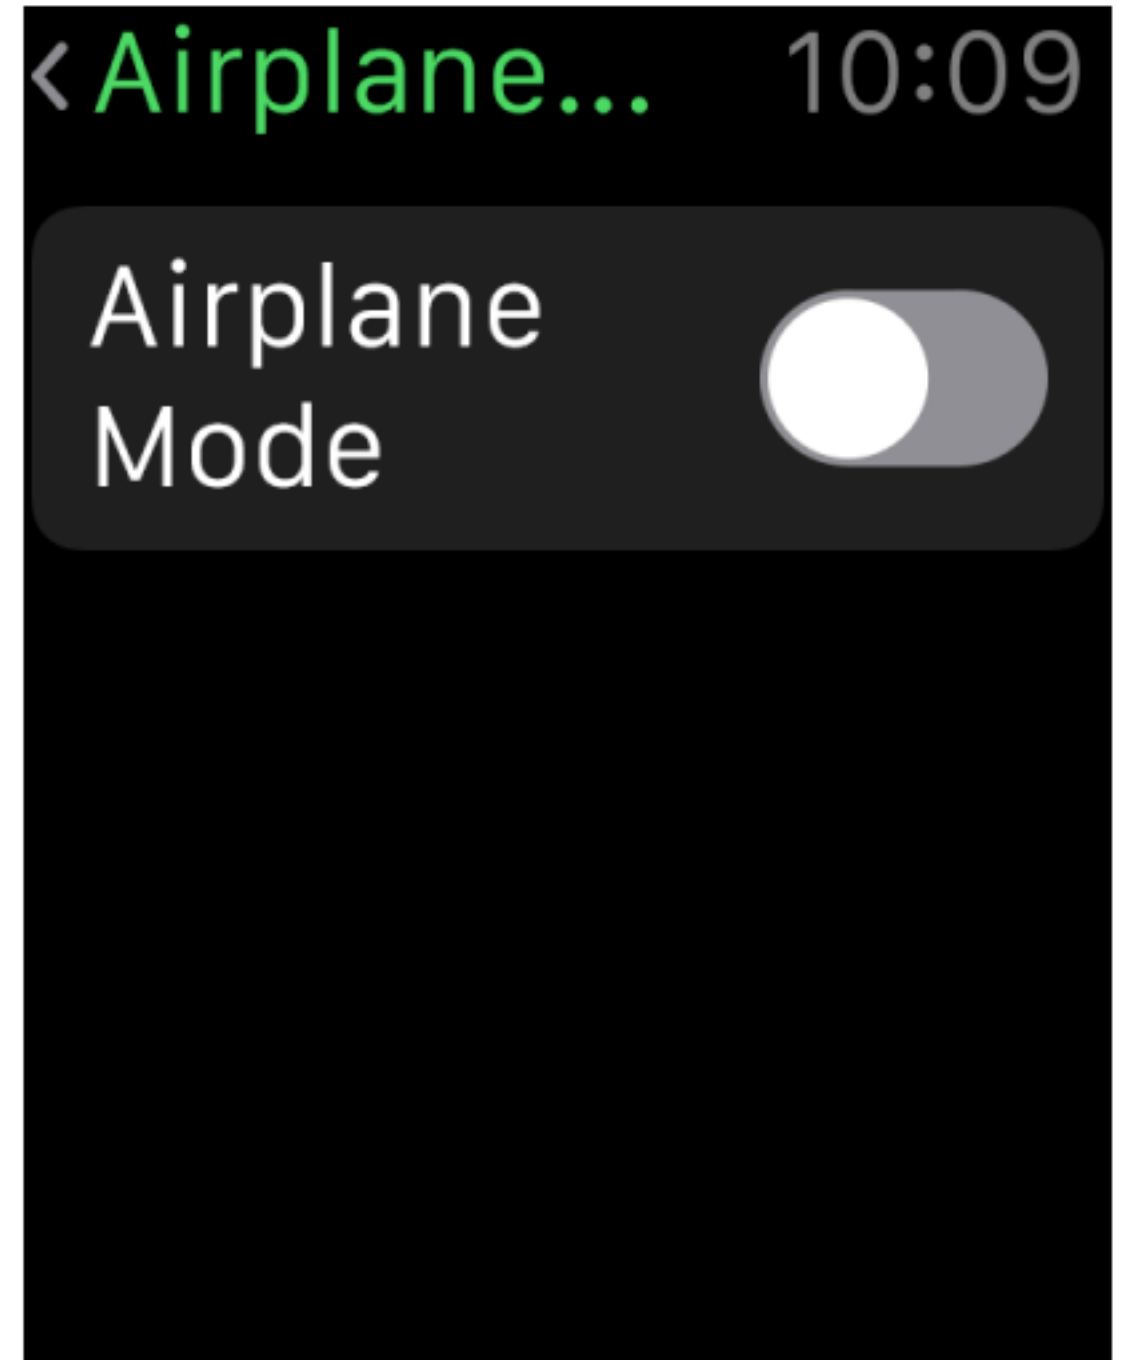

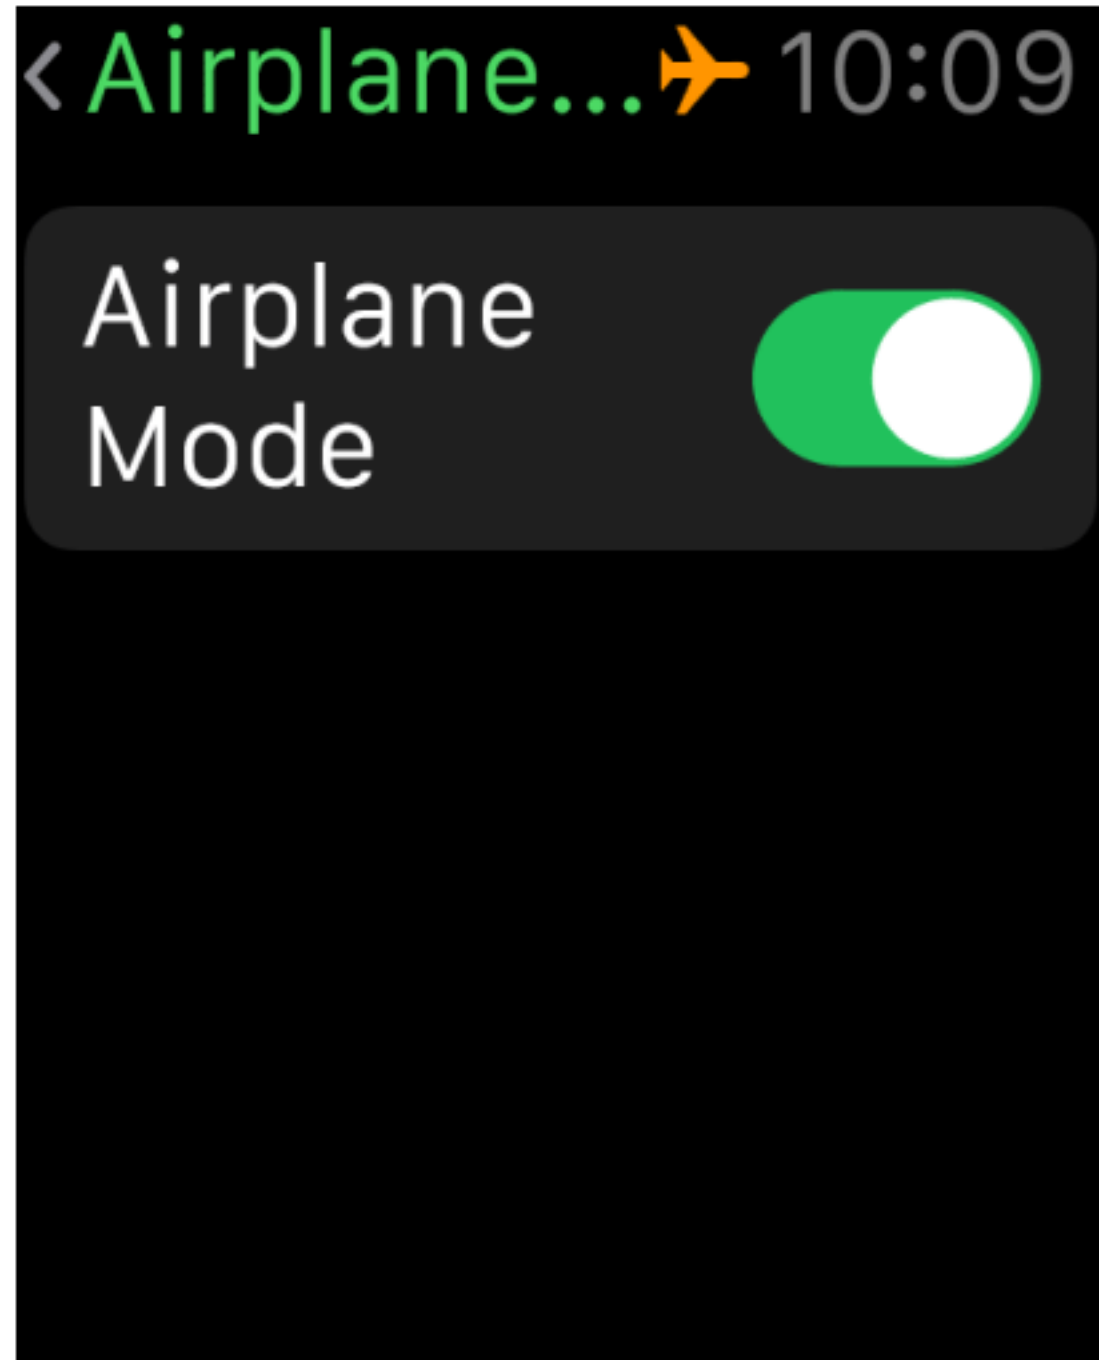

CONTROLS

- sliders
- switch
- buttons

SLIDER

SWITCH

BUTTON

Maybe

Decline

Dismiss

GUIDELINES

- use a black background
- prefer left alignment

NEXT STEPS

- Read the Watch HIG
- Watch the video
- Make app map and wires for a Watch App that works with your Project I Phone app
- Glance and notification are optional
