

Food Solo App Wireframe

Description:
First project idea:
Design a sound maker app
based on the food you
take everyday

Target audience:
a sound game app
for kids age 8 to 100,

1. Users can drag the food they were eating today, or choosing any drinks they like to the Playlist.
2. The food will randomly flow up from the bottom to top.
3. Showing in cute and sketch style.
