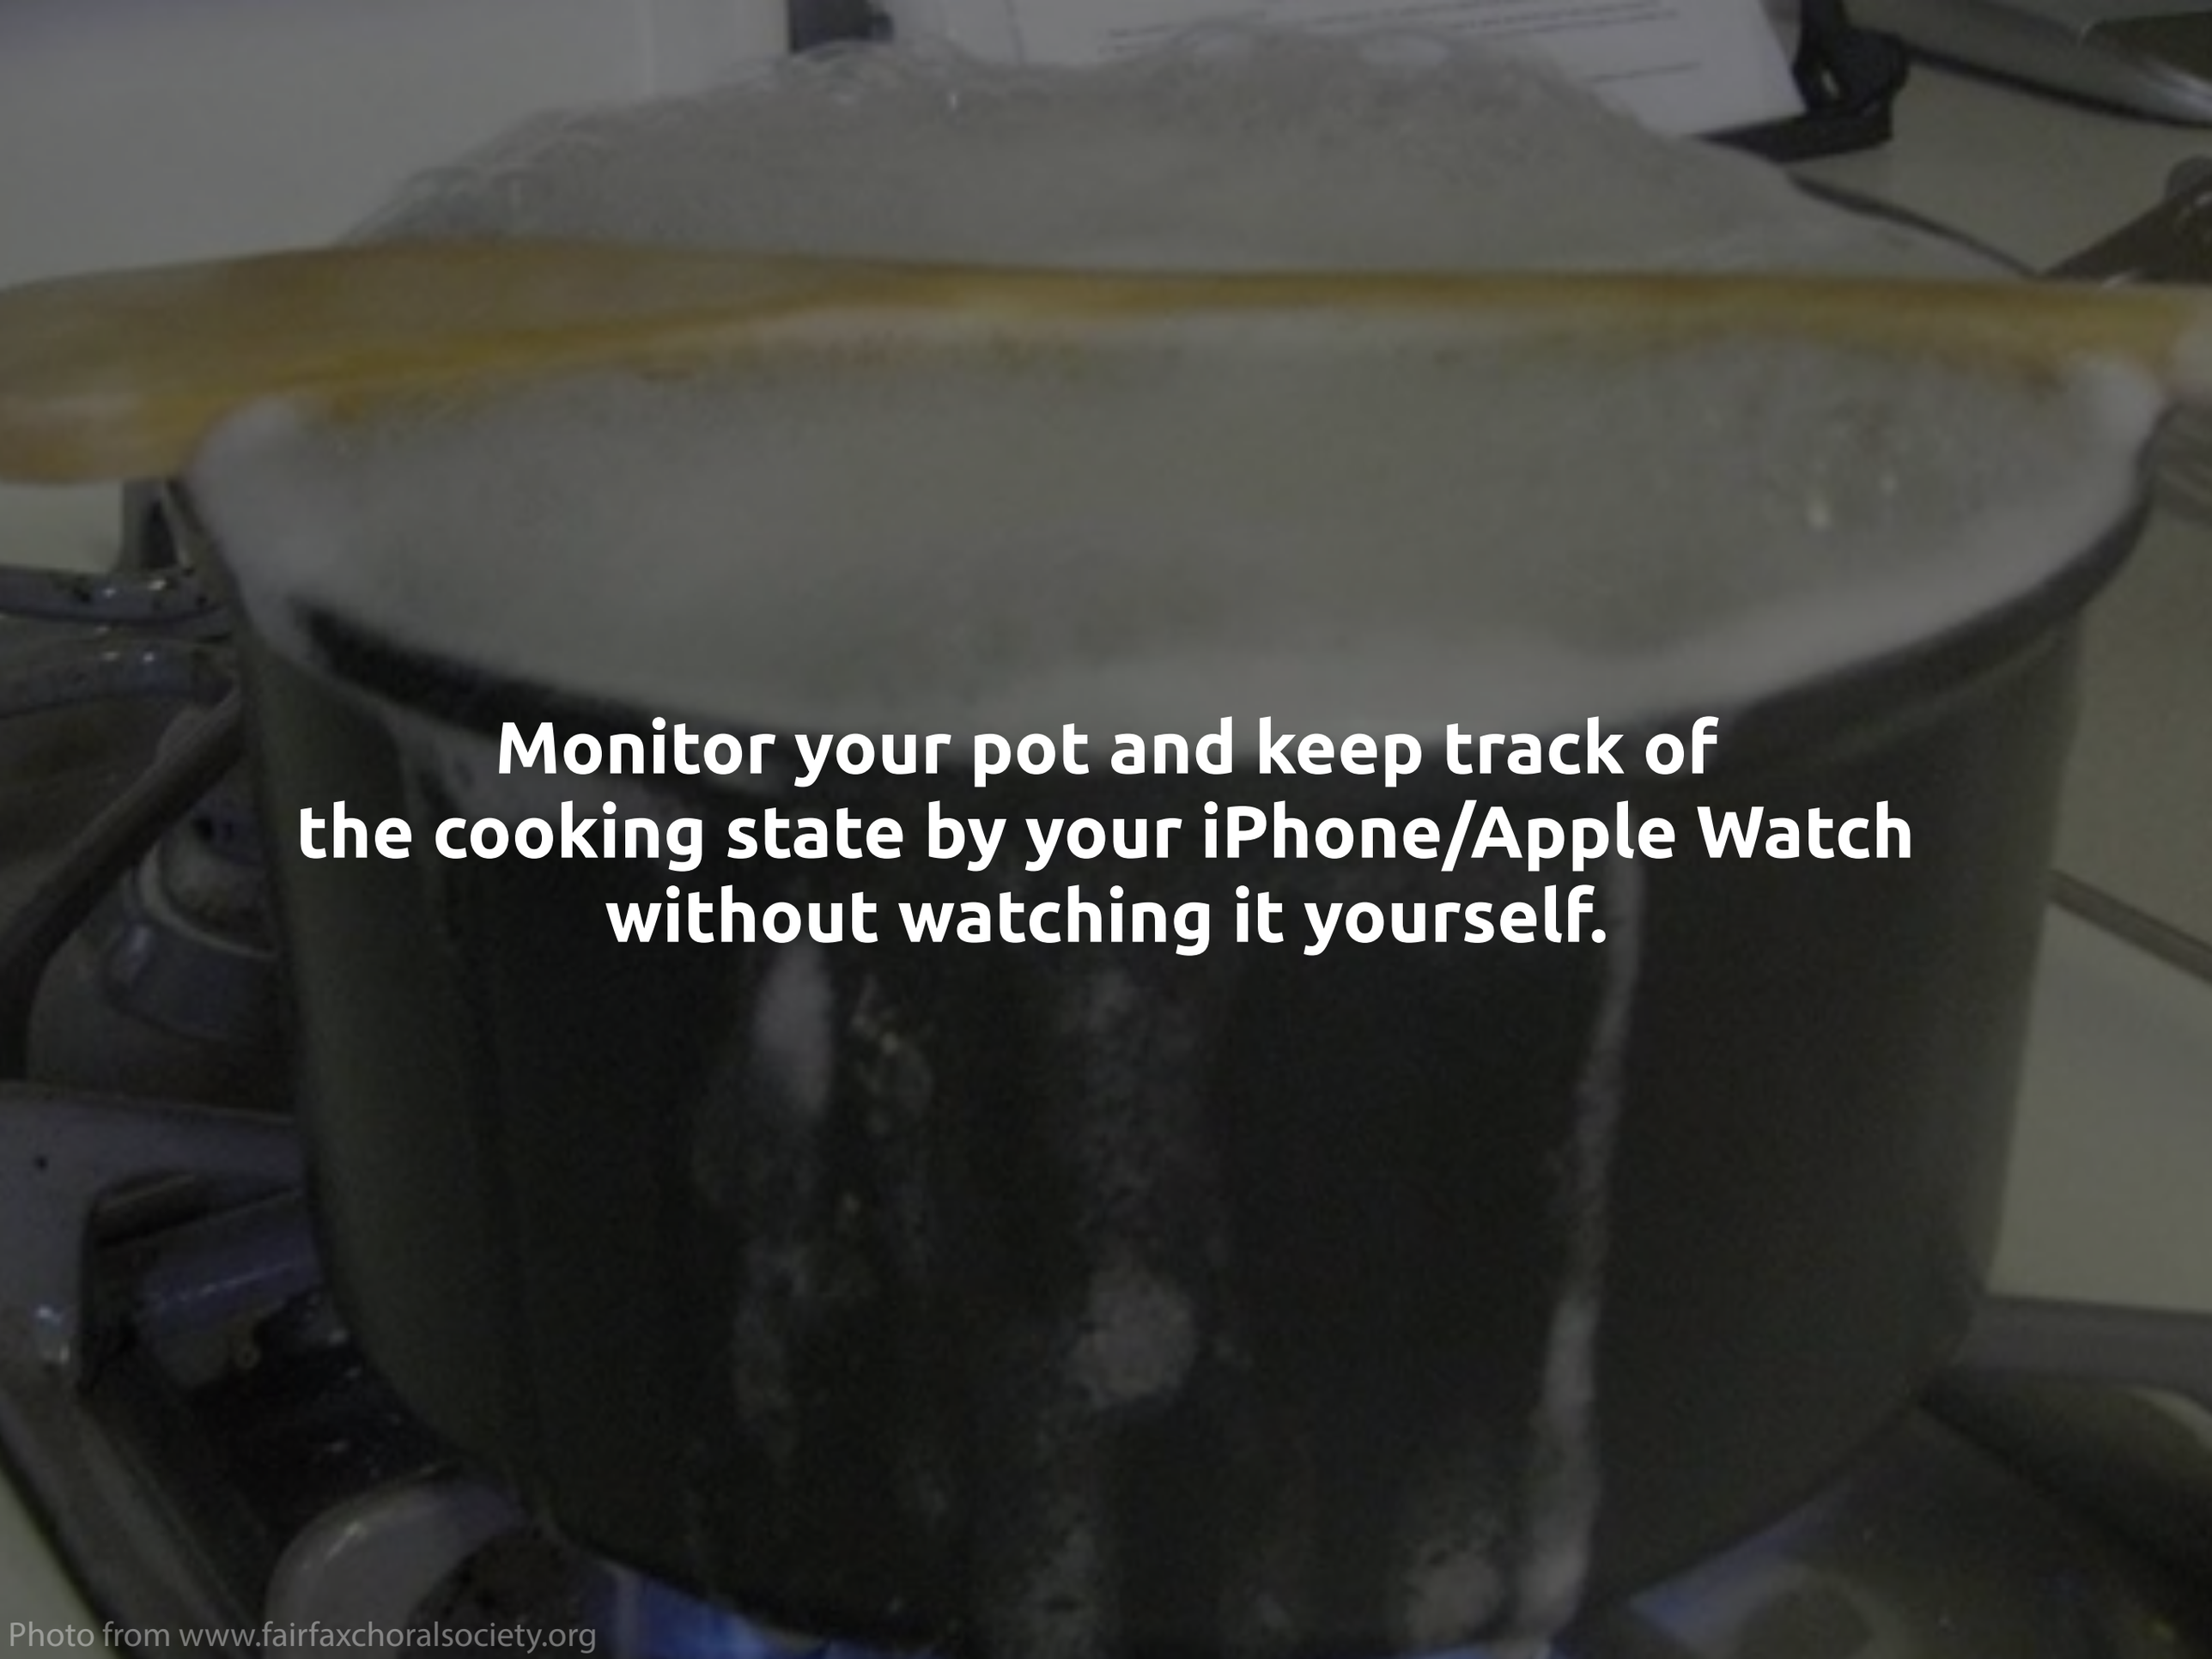
Boil Monitor

Shih-wen 'Angela' Chen



Monitor your pot and keep track of
the cooking state by your iPhone/Apple Watch
without watching it yourself.

User insights

- User should be able to view the camera immediately when they open the app, which allows them to know it is working as a monitor, and helps them adjust the position of phone.

- Only after setting their iPhone up on the tripod can users start monitoring (tap [8]start[9]).

- On Apple watch, the camera and status should be the first view, before alerts are displayed.
